ADDITIONAL INFORMATION

All prices quoted in GBP and USD include 20% tax. All USD prices are approximated and subject to currency conversion rates on the date of your purchase.

After your order is placed you will receive my design questionnaire which contains basic questions including your hosting account login details, reference links and contact details.

All content including pages wording, photos, contact information, shipping and taxes information needs to be provided by the customer in format and size requested by us.

All website design packages except the "Website design with portfolio and proofing" are built using free open source plugin software. If you require any additional commercial software to be incorporated into your design please email us for a quote.

"Website design with portfolio and proofing" includes one license of ProPhoto and ProPhoto proofing which will be purchased on your behalf.

Any third party payment processing fees (paypal fees, credit card fees, etc.) are not included.

SEO integration is included in all website design packages. You will receive instructions where to enter your SEO information. If you wish to purchase SEO writing and implementing for £250 | \$385 please email us before placing your order.

CD with your design files is included in every website design package.
